Exceptional AP Exam Results for TASIS England Students

TASIS England's Advanced Placements candidates achieved an impressive average score of 4, significantly higher than the world average of 3.32 out of 5. This year, 203 students took 457 AP exams across 25 subjects. Given that 45 of our AP students were in Grades 9 and 10, this is indeed an exceptional performance that reflects the benefits of individualised learning pathways. Of the exams taken by our students this year, 40% received the maximum score of 5, and 69% were awarded a score of 4 or higher.

These AP results reflect our students' dedication and readiness to embrace challenges and opportunities. They also reflect the myriad benefits of opening up a range of learning pathways for students to explore throughout their time in Upper School. Head of School Bryan Nixon congratulated this year's AP Scholars and added, "this week, we are celebrating success and the grades awarded, as well as the individual stories of our students, who each demonstrated a commitment to exploring their unique learning pathways at TASIS England."

AP courses are developed by the American College Board. Universities around the world value success in these externally graded, subject-based exams.

- ENDS -

TASIS England is a leading independent, co-educational school in Thorpe, Surrey, for day (ages 4-18) and boarding students (ages 13-18). Students from more than 70 countries contribute to a unique and dynamic learning environment, thriving in an atmosphere that encourages character development and academic achievement and celebrates the School's international community.
